Vikram Kalra

Full Stack Web Developer

Professional Summary

Driven Full Stack Web Developer with proficiency in JavaScript and expertise in the MERN stack (MongoDB, Express.js, React.js, Node.js). Experienced in translating project requirements into functional web applications, creating efficient server-side APIs, and optimizing database models using MongoDB. Adept at conducting thorough testing and debugging for reliable and stable applications. Strong problem-solving skills, attention to detail, and ability to collaborate effectively in team environments. Proactive and self-motivated, constantly staying updated with the latest web development trends and best practices to enhance the development process.

Projects

Fathom Health Clone [Live Demo Link](#) [Github Repo Link](#)

React JavaScript Responsive Web Design Git

CSS3

- Built a clone of the Fathom Health website using React and Chakra UI
- Replicated the layout and design of the original website to showcase frontend development skills
- Implemented a dynamic news section to display categorized news, insights, and resources
- Featured news highlights section to showcase significant announcements and press releases
- Created a user-friendly navigation with intuitive buttons for easy exploration of specific news categories
- Implemented subscription feature with a toast notification for users to receive updates
